
2017 – Marlene’s Test Tip (:30)

A TIP FROM A FORMER SMOKER

Marlene’s Voice:

I’m Marlene. I smoked and got macular degeneration.

So, I don’t see very well.

If this happens to you, you could need eye injections every month like I do. My first tip is: find a doctor that you could trust.

My other tip is: Before they put that needle in your eyeball, look as far away as possible.

Announcer:

Smoking can cause loss of eyesight.

YOU CAN QUIT, for free help, call 1-800-QUIT-NOW.

A message from the Centers for Disease Control and Prevention.
